Basic functionality

- Register an account (/register)
- Login (/login)
- Logout (/logout)

Once logged in, a user should be able to:

- create a post (/create-post)
- view a list of their own posts (/user_name/posts)
- view a list of everyone's posts (/posts)
- view a specific post, including the comments people have made about it (/post/{post_id})
- leave a comment on a post (/add-comment)
